

where the grass is always greener

COUNTY FESCUE SPECIFICATION SHEET

DETAILS

County Fescue is an all-Fescue turf suitable for golf and bowling greens, golf fairways and luxury lawns. It requires regular, skilled maintenance to keep it in good condition. It is our finest-textured turf with a very dense, close-mown sward. County Fescue is grown on natural sands that are very close to USGA specification, and with using a 50:50 blend of chewings and slender fescue, it provides all year round excellent performance.

TYPICAL SEED COMPOSITION – COUNTY FESCUE (WITHOUT RYEGRASS)

Grass Species

- **25% Barlineus** – Chewings Fescue
- **25% Bodega** – Chewings Fescue
- **25% Viktorka** – Slender Creeping Red Fescue
- **25% Barcrown** – Slender Creeping Red Fescue

S.T.R.I. CULTIVAR PROFILE

- Barlineus** A top rated Chewings Fescue cultivar with superior shoot density. Highly scored on visual merit with the joint highest mean score in the STRI 2024 cultivars table. An excellent colour all year round with very high disease resistance.
- Bodega** Ranked extremely well in the overall rating for the top Chewings cultivars in 2024. Excellent disease resistance and year round greenness of colour. Bodega also has a very high shoot density and visual merit.
- Viktorka** Rated very highly in the 2024 Slender Creeping Red Fescue table. Viktorka boasts a shoot density of 7.5, and is very fine leaved with superb greenness. Viktorka also offers a notably high score of 7.8 in disease resistance.
- Barcrown** One of the best Slender Creeping Red Fescue Cultivars in 2024. Exceptional shoot density, fine leaved and excellent year round greenness. The most disease resistant Slender Creeping cultivar with the highest score of 8.3.
