S.T.R.I. CULTIVAR PROFILE

- Eurodiamond** One of the best performing Ryegrass cultivars for wear tolerance
A top score for live ground cover with excellent shoot density. Eurodiamond recovers superbly well from wear and establishes quickly.
- Chardin** Another top cultivar available on the STRI sports use table in 2024. Fantastic shoot density whilst maintaining a very fine leaf. Able to recover well from wear. Chardin is exceptionally hard wearing making it an ideal choice for sports use.
- Sombrero** A highly rated Smooth Stalked cultivar in 2024 with excellent ground cover and recovery from wear whilst maintaining excellent fineness of leaf. Rivals all the top Ryegrass cultivars. Ideal for winter games pitches.
- Cezanne** A very top Slender cultivar in 2024. Has superb shoot density and disease resistance with an excellent year round colour.
- Wagner 1** Excellent shoot density. Has an superior year round greenness.
- Rossinante** One of the top cultivars of Strong Creeping Red Fescue in 2024. Boasts a high shoot density and an outstanding score in visual merit. Alongside superior disease resistance.
